

## Mobile POS| Hi10

### Key Features

- ❑ Qualcomm CPU brings a higher cost-effective experience
- ❑ 2G\3G\4G full network coverage
- ❑ Stable Wi-Fi and BT support for Mobile Usage
- ❑ Built-in high-performance thermal printer
- ❑ Multiple peripherals of camera, barcode scanner, RFID card reader support variety of usage scenarios

| MODEL                   |             | Hi10   |                                   |
|-------------------------|-------------|--|-----------------------------------|
| Processor               |             | Qualcomm A53 Quad-Core 1.4Ghz  |                                   |
| Operating System        |             | Android 7.1  |                                   |
| Memory                  |             | 1GB(standard)  | 2GB(optional)                     |
| Storage                 |             | 8GB eMMC(standard)   | 16GB eMMC(optional)               |
| Display Panel           |             | 5.0"IPS LCD screen / resolution: 1280*720/G+FF features                      |                                   |
| Touch Screen            |             | True flat capacitive touch screen  |                                   |
| Power Supply            |             | Input: AC: 100-240V, Output: 5V,2A   |                                   |
| Speaker                 |             | 1*8W Speaker   |                                   |
| Rear Camera             |             | 5M px rear camera  |                                   |
| Integrated Printer      |             | 58mm thermal printer, 40mm Roll, 75mm/s                                      |                                   |
| Battery                 |             | 7.4V, 2600mAh  |                                   |
|                         |             | Stand by: 250+ hours<br>working : 16+ hours (Display on and wi-fi connected) |                                   |
| GPS/A-GPS               |             | Build in GPS, support A-GPS  |                                   |
| Communication           |             | Dual-band Wi-Fi® 802.11a/b/g/n 2.4GHz/5GHz                                   |                                   |
|                         |             | Bluetooth 3.0 + BLE 4.2  |                                   |
|                         |             | GSM, WCDMA, TDD_LTE, FDD_LTE   |                                   |
| I/O Ports               |             | 1*micro USB(charge supported), OTG USB                                       |                                   |
|                         |             | 1* Audio, 3.5mm, Support external RFID identification                        |                                   |
|                         |             | 2*SIM card slot  |                                   |
| Dimensions (WxDxH)      |             | Color box:<br>210mm*91mm*78mm  | Cartoon Box:<br>340mm*215mm*200mm |
| Weight                  |             | 0.58kg   | 6.25kg                            |
| Optional<br>Peripherals | Card Reader | NFC : ISO/ICE14443, Type A&B, Mifare Card                                    |                                   |
|                         | Scanner     | Build in 1D scanner  |                                   |
| Accessory               |             | 1*Micro USB cable , 0.8m exposed   |                                   |
|                         |             | 1* Power adapter   |                                   |
|                         |             | 1*Screwdriver  |                                   |
| EMC&Safety              |             | CE/FCC/RoHS pending  |                                   |
| Operating Environment   |             | 0°C - 40°C/40%-90% RH non-condensing   |                                   |
| Storage Environment     |             | -20°C - 60°C/10%-90% RH non-condensing                                       |                                   |
| Color                   |             | Blue and Black   |                                   |

- Support 2G/3G/4G
- Support dual band wifi
- Support Bluetooth
- Support GPS/AGPS

- Integrated 2" printer
- Optional 1D/2D scanner
- Optional NFC card reader
